> **Can rewind and unwind rolls of labels**
> **Saves time**
> **Cost-Effective Printer**
> **Low Energy Consumption**
> **Easy to Use**

Automatic Label Counter Series allows to count the labels on a roll, to rewind and unwind the labels on one machine, to rewind the labels onto different core sizes, to rewind small rolls of labels from a larger one and also to rewind small rolls with a preset number of labels from a larger roll. This last feature is possible thanks to the setting of the preset labels' number through the electronic counter. Once the preset number of labels will be reached, the label counter will stop by uttering an acoustic signal. Both turrets of the label counter are motorized and it is possible to adjust the speed of rotation on the rewinder only while the unwinder has an automatic self-adjustment speed.
